The good news is we have papers for most of these topics. I've attached the latest versions of the papers we have.

WRAPD and OWCD, we'll need new factsheets from both of you. See summary below. Lee wants these before his 9:00 infrastructure meeting. I know, it is an impossible deadline. RMS said if we can just get a few bullets, that will work.

OWCD:

- NEW: We need a paper on 401 Certification/Millennium Port
- 404 Assumption: Prepared a paper, but it isn't in Lee's book. Please review to see if updates are needed.
- NEW: Ocean Acidification: I found a paper from two years ago. Please dust-off.

WRAPD:

- NEW: HABs: OW has a HABs paper that focus on DW, but Tim asked that we prepare a general paper that covers near-shore HABs. We have one specific to FL, but Tim wants a general paper that will cover any member. I've attached South FL and OGWDW's papers for reference.
- Hypoxia: We've already submitted paper on nutrients/hypoxia task force. I don't think it is included in Lee's book. Please review to see if updates are needed.

- Chesapeake Bay TMDL: We've already prepared a paper. I don't believe it is in Lee's book. Please review and update as necessary. The Bay program has already prepared a paper on funding.

Folks— stay tuned but we may have an extremely short turnaround on a few additional issue papers for the Administrator's hearing prep this morning.

If any of you are aware of existing Regional one-pagers on the topics I mention to Ann below, let me know. The format is the SAC one we used for the papers we completed last week (Bob or Kristie, please reply all with one of our samples). I'll do a quick caucus with the drafters as you start based on reviewing previous ones.

Thanks, Everyone!

John

I'm going to need to check when I get in. Lee was provided his book but I have a feeling he didn't go through it to figure out if these were in there. Tim has been running point on this so I don't know what's in there. What I do know is the prep meeting is at 11a so there isn't much time this morning if any of these need to be produced.

Do we need to draft any of these in the next couple of hours or do all of these exist and Lee just wants you to compile them? Unless the Region has crafted them, I don't recall seeing one on 401/Millennium or OR OA (and not sure what currently exists for CBay). If we do have to draft these, what is the actual due time?

Thanks

Ann,

We need info for the Hearing Brief on the following

WOTUS General from any Republican

Richard Shelby – AL – Small Drinking Water Grants – Program Assistance

Lamar Alexander – TN – Conduit Theory

Roy Blunt – MO – Missouri Lakes WQS

Mitch McConnell – Conduit Theory

Steve Daines MT – 401 certification/ Millinium Port

Shelley Moore Capito – WV – Outstanding WV WQS determinations, PFAS/Gen X

Marco Rubio – FL - 404 Assumption , Harmful Algae Blooms, Hypoxia

Cindy Hyde - MS - Harmful Algae Blooms, Hypoxia

Tom Udall – NM – Oil & Gas study/beneficial reuse of water

Jeff Merkley – OR – All outstanding Oregon WQS issues, Ocean Acidification

Chris Van Hollen – MD – Chesapeake Bay – funding, TMDL, etc.

We need these first thing in the morning. Must be in the binders before we leave for the Infrastructure meeting.

Lee
